

Denies Loyalty Conflicts

Relations With German Dye Trust No Disloyalty To United States

WASHINGTON, April 2—(AP)—Senator O'Mahoney (D-Wyo) contended today that cartel agreements it had made with the German dye trust had caused the Standard Oil Co. (New Jersey) to be "bound by two loyalties," but a company official disputed the contention.

These relations, protested vice President F. A. Howard of the company, did not produce any "conflict of loyalty with the United States."

Howard was a witness before the senate defense investigating committee when the discussion arose.

O'Mahoney read a letter written by the manager of the Standard Oil Development company on Jan. 20, 1941, saying that under 1939 agreements with I. G. Farben it would be necessary to refer Japanese and South American synthetic rubber customers to the German concern.

Did Not Give Patents

Howard said this was due to the "simple fact that we did not own the patents in the countries in question, and I. G. did own them."

Standard, he said, could have been sued by I. G. Farben if it attempted to sell products covered by the patents in South America. O'Mahoney declared that the 1939 agreement, which he described as a "modus vivendi" for operations during the war, required Standard to have one policy in the United States and another in South America although "South America is bound to the United States by the closest ties" in this war.

"Your difficulty," he told Howard, "proceeds from that fact that you are bound by two loyalties. First you are bound by your loyalty to I. G. Farben and secondly you are bound by loyalty to the United States and its policies. I have no doubt of your choosing the second but it illustrates the difficulties."

Disagreeing Howard said O'Mahoney was saying that because Standard bought patents in one country and not in another it was creating a double loyalty.

Suggested Japanese Partners

The Wyoming senator also referred to a cablegram, read into the record earlier, from a Standard representative at Yokohama in 1939, suggesting that arrangements be made with Japanese partners who would be influential in helping Standard, following "any interruptions of trade."

W. S. Farish, Standard president, interjected that this proposal was turned down.

O'Mahoney observed that nevertheless the cablegram showed "the difficulty a company faces when dealing with the primary interests of the country to which it owes its loyalty."

"Ever company engaged in international trade," Farish replied "has the same difficulty."

"Quite," O'Mahoney agreed. Before today's session, O'Mahoney asserted to reporters that relations between Standard and I. G. Farben before the war illustrated a "device whereby economic opportunity for the masses has been restrained."

Bothwell Hospital Notes

Howard Winfrey, 9, son of Mr. and Mrs. Howard Winfrey, 1502 South Ohio avenue, and John Thomas Phillips, 8-year-old son of Mr. and Mrs. John Phillips, 1307 East Seventh street, were admitted for surgery.

Mrs. Harold Morrison, 106 West Second street, and Ed Stanley, Liberal, Kas., were admitted for medical treatment. Mr. Stanley, a representative of an eastern pipe line company, is residing at the Royal hotel.

The condition of William Jeffries and Philip Monsees remain critical; Louis Schnabel shows improvement.

Mrs. Max Riecke, Mrs. Charles Slusher, Miss Dorothy Kuhn, Mrs. Virginia Paul and Glenn Johnson have been dismissed from the hospital.

Uncle El

If some of the warriors and planners for what the country is going to be like after the war would just realize that they won't have to do any worrying or planning at all unless we first win the war, a lot of futile arguments might be avoided.

Missourian Wins Navy Cross

MARE ISLAND NAVY YARD, Calif., April 2—(AP)—Corp. Harold R. Hazelwood of Stark City, Mo., who stuck to his post though seriously wounded by Japanese fire in the sneak attack on Dec. 7, has received the coveted Navy Cross.

Hazelwood was on Sand Island, one of the Midway group, when the Japanese struck. A fragment from a projectile, which struck near the switchboard he was operating, mangled Hazelwood's leg.

Despite his condition, he immediately set up the switchboard again and reestablished communications.

'Clint' Davis Exalted Ruler

Installation Of New Officers By Elks Wednesday

H. C. Davis was installed as Exalted Ruler of Sedalia lodge No. 125, Benevolent and Protective Order of Elks, at the annual installation ceremonies Wednesday night. Davis was elected to the post from the chair of Esteemed Leading Knight, succeeding Geo. H. Scruton, who becomes Past Exalted Ruler.

H. C. Davis

Other Elks officers who were installed that night for 1942 were Eugene Hansman, Esteemed Leading Knight; Dr. Hardin Gouge, Esteemed Loyal Knight; Virgil Corson, Esteemed Lecturing Knight; Joe W. Reid, secretary for the 15th consecutive year; Judge C. W. Bente, treasurer; A. L. Dickman, Tyler for the 16th consecutive term; J. W. Menefee, trustee for three years, appointed for the 15th consecutive term. Dr. C. H. Weaver, alternate to the Grand lodge meeting.

Exalted Ruler Davis announced the following appointments: Esquire, Thomas F. Walsh; Chaplain, I. H. Reed, Inner Guard, Ellsworth Green; Organist, Robert Reuter; Assistant Organist, Robert Overstreet.

Installation exercises were conducted by Past Exalted Rulers in the following chairs: Grand Exalted Ruler, Dr. C. H. Weaver; Grand Esteemed Leading Knight, O. B. Poundstone, Grand Esteemed Loyal Knight, Hugo Sparr; Grand Esteemed Lecturing Knight Paul Hedderich; Grand Esquire, Dr. M. E. Gouge; Grand Chaplain Emil Neef; Grand Inner Guard, Roy Snyder.

Following the meeting there was a social session with refreshments.

Axis Watches Senate Dispute

WASHINGTON, April 2—(AP)—The White House took note today of the controversy between Vice President Wallace and Representative Dies (D-Tex) by citing a federal communications report that two axis radio stations and one in Vichy had picked up Dies' charge that 35 employees of the board of economic warfare were affiliated with Communist front organizations.

William D. Hassett, an assistant presidential secretary, read excerpts from a report from the FCC monitoring service. The report said an official German broadcast to North America on Tuesday, another from Vichy on the same day and a third yesterday from station "Debunk," which purports to be in this country, had repeated Dies' charge.

Wallace, replying to Dies, the chairman of the house committee on un-American activities, has said the congressman's statements "might as well come from Goebbels himself" and that "the effect on our morale would be less damaging if Mr. Dies were on the Hitler payroll."

Lost Bicycle Found

The bicycle of Walter Hayes, reported stolen from 111 South Ohio avenue Wednesday night was recovered this morning. The wheel was found in the 100 block on East Third street, and has been returned to the owner.

Envoy Hopeful Difficulties May Be Solved

Cripps Thinks India May Accept Britain's Offer

By DEWITT MACKENZIE
Wide World War Analyst

Some hope that India might still be persuaded to accept the offer of dominion status was rejected into the crisis today by British envoy Sir Stafford Cripps, who announced in New Delhi that with good will we may be able to solve the difficulties.

Thus the world has an eleventh hour reprieve from a possible tragedy, which would be as much military as political. In view of the danger of failure to reach agreement many readers are asking what is likely to happen, if that unhappy position is reached. Well the answer is that is rather a tall order to fill, especially when we are talking about a country so inflammable as India, but there are some things which stand out starkly. For instance:

May Be Passive

Since the Indian Nationalists have made cooperation with Britain in the war effort dependent on solution of their claim for independence they presumably will return to passive resistance. This would create a grave weakness in one of the most important allied bases.

The number of native troops available to Britain to stand off invasion. Moreover, it might affect the war industries — and India is one of the great and strategically situated arsenals of the United Nations.

All this naturally would encourage the Japanese to try invasion of India. And they need mighty little encouragement. Should they be successful it would create the possibility of a junction between them and Hitler in the Middle East — a nasty situation for the allies.

Represent A Set-back

In short, it would represent a set-back of unpredictable proportions to the allies, and a corresponding victory for the axis.

Several readers of this column are asking whether there is danger of a revolution in India. I should say that the chances are against any widespread revolt so long as Gandhi retains his grip on his vast following. He is against the use of force in any form.

Of course, in a country as vast as India, with a population of 390,000,000 there is always possibility of trouble in one place or another. In this connection one recalls that on March 10 Mohammed Ali Jinnah, president of the All-India Moslem league, announced that if Britain's proposals were detrimental to Moslem interests, there would be a Moslem "revolt." His statement was widely regarded in London as being made in deadly earnest.

My observation is that the most troublesome spot is in Bengal province, of which the great metropolis of Calcutta is the capital.

Certificates On Tires Issued

The Pettis County Rationing Board met Wednesday afternoon at which time it passed upon and issued seventeen tire certificates, for new tires and "retreads." The board exhausted their weekly allotment on passenger cars but still have a few heavy truck tires which will probably be allotted this week.

The board reports an exceptional heavy run on passenger car tires and retreads by persons who are eligible for the tires under the federal rationing rule.

Passenger tires: Howell Seed and Dairy Co., 114 South Osage, two tires and two tubes. Sedalia Implement Co., 218 West Second street, two tires and two tubes. Milo Spahr, Green Ridge, four tires.

Passenger recaps: James B. Montgomery, Houstonia, two tires. Julius Altschul, Washington D. C., two tires. L. E. Durley, R.R. 1, Hughesville, two tires. Sam E. Ross, Dean Apartments, one tire.

Heavy truck tires: Des Moines, Sedalia, Marshall, Springfield and Southern States, 211 East Second street four tires and two tubes. one tire. (tractor). J. R. Van Nat-G. W. Walk, R. F. D. 1, Sedalia, one tire. "Spartan" and "Spartan" in Evans, 1612 West Broadway, four tires.

Heavy truck retreads: Sedalia Bus Co., 500 West Sixteenth street, two tires. System Mills Inc., 400 West Main street, two tires. Eddie Sprinkle, La Monte, two tires. Ollie Elliott, 900 West Eleventh One.

Obsolete tires: James H. Baslee, R. F. D. Green Ridge, one tire. Oscar Wiley, R. F. D. 5, Windsor, two tires.

Newspaper Columnist Dies

ST. JOSEPH, Mo., April 2—(AP)—Josiah Beattie Moss, pioneer newspaper columnist and business man who was there at the start when the famous pony express began its history-making deliveries from the St. Joseph station, died yesterday. He was 92. Mr. Moss often related he was one of the first persons to reach the side of Jesse James after the outlaw had been slain.

Charge Plants Are Falling Down On Jobs

Committee Wants Trained Executive To Break Bottlenecks

WASHINGTON, April 2—(AP)—Criticizing the nation's armed forces for a "poor job of over-all planning," the senate defense investigating committee recommended today that the war production board draft a trained aircraft executive to direct a drive to break the bottlenecks which are "holding up peak production" in the war plane program.

Summarizing a subcommittee's visit to the west coast, the committee reported that plane assembly lines in big plants were not running to capacity because of recurring shortages of some vital parts being produced by subcontractors.

"A poor job of over all planning, from aluminum ingots to finished aircraft, by the armed services and the old OPM (office of production management) must be blamed for the present situation," the committee said in its report. "The usual red tape and delays in making contracts also were partly responsible."

Recommend New Setup

The committee recommended that the WPB set up a section charged with over all planning for aircraft production, headed by a trained production executive to be drafted from the industry.

"The subcommittee had been told," the report commented, that "the WPB still does not have a single top notch aircraft production man in its organization."

The report recommended also that "instead of wasting its energies on a generalized plea for 'all out production, which has confused management, labor and the public, the WPB concentrate its efforts on breaking those bottlenecks which are, in the aircraft industry to the subcommittee's knowledge and probably in other fields, really holding up peak production."

Electrician In England

Mr. and Mrs. E. M. Keithley, 1410 South Warren, this city, have received word from their son Marion, who is in England with the Civilian Technical Corps as an electrician, for the first time since he landed in England about two months ago. Marion writes that he is well and, he has been in a number of air raids and that it is not so funny to have bricks flying all around you. During the recent raid he was called out to make repairs to some electric wires that were down in the city.

He reports that when he left Canada he had with him one pound of Prince Albert smoking tobacco and one 25 cent Hershey bar. When he landed in England he was offered the sum of 45 dollars for the can of tobacco and four dollars for the Hershey bar. He did not sell them, however, as he said you are unable to get a lot of things like this and we would rather have these two items than the cash.

Marion is well known to many Sedalians and his many friends will be glad to hear he is safe in England.

Sedalia Firm Gets Part Of War Contract

The Bryan-Paulus Awning Co., 604 South Ohio avenue, has received part of a government contract to manufacture pyramid tents, and today placed an advertisement for seamstresses. The contract is part of 36,000 let by the government and the local company at present will handle 900 tents.

This is the first allotment of the 36,000 and if the local company is in position to obtain sufficient workers then a larger allotment is to be made.

Slight Damage Due

To Excessive Explosion

Some damage to equipment was caused by an excessive explosion of dynamite, set off by employees in regular line of duty, at the Missouri Limestone & Fertilizer Company's rock quarry, on the Perry farm four miles south of Sedalia at 5 o'clock Wednesday evening. Repairs are being made immediately and there will be slight loss in production time, according to Wade Lehr, manager.

FDR Holds First Meeting of Pacific War Council

In the White House President Roosevelt holds his first meeting with the Pacific War Council. Attending were, from left to right: T. V. Soong, China; Walter Nash, New Zealand; Australian Foreign Minister Ewart; Lord Halifax, England; President Roosevelt; Hume Wrong, Canada; A. Landon, Netherlands; and Harry Hopkins, special assistant to F. D. R.

America Will Build More Submarines

Necessary That Campaign For More U-Boats Succeeds

By ROY G. BLANCK

WASHINGTON, April 2—(AP)—America's anti-submarine campaign is being stepped up rapidly to meet an expected all-out summer drive by 300 to 400 U-boats, reliable sources said today.

The navy announced late yesterday that 28 axis submarines had been sunk or presumed sunk by U. S. forces thus far. Naval observers said, however, that the rate of destruction was still too low to check the German drive. They gave this picture of the situation:

Germany had at the very least 120 ocean-going submarines before December 7 and 180 more building for service by mid-summer. New evidence indicates that this figure is ultra-conservative, and salvaged parts of destroyed submarines show the Germans have developed very rapid methods of construction.

Germans Still Going

Although Germany has suffered heavy U-boat casualties thus far, the rate of sinking has not slowed the present U-boat campaign and would be of dubious effectiveness against a more intense drive.

Even so, the Germans have failed to divert U. S. naval strength from more vital war-fronts to form convoys in American waters — the second line in the ocean battle. The number of merchant craft sunk off the Atlantic and Caribbean coasts is approaching the 80 mark, but this rate might prove far from crippling in view of the tremendous ship-building program and development of land transportation facilities to bear some of the load.

Survey Favorable To Sales Tax

WASHINGTON, April 2—(AP)—Representative Disney (D-Okla) said today a survey he had made showed that "an overwhelming majority" of the house would vote for a sales tax rather than for big increases in individual and corporation taxes proposed by the treasury.

Asserting that congress could not raise \$7,000,000,000 from corporations and individuals, Disney said in a statement that "we will be compelled to go to a sales tax, much as we dislike to."

Secretary Morgenthau presented a \$7,610,000,000 tax program to the committee March 3, with \$3,000,000,000 to be obtained from individuals and \$3,000,000,000 from corporations.

Morgenthau has recommended that the given discretionary authority to withhold at the source up to 10 per cent of a person's net income subject to normal taxes, with the deductions applicable as a credit for taxes paid against the annual income tax obligations.

Bennett Bar Robbed Of \$250

The Bennett Bar, Main street and Ohio avenue, was robbed of a money sack containing about \$250, according to a report made to the Sedalia police this morning. The bar was found unlocked about 2:30 o'clock this morning by Officer William Burger.

Jack Bennett, the proprietor, was notified and Officer Burger waited until he arrived and the place was locked up. At the time Mr. Bennett did not notice that anything was disturbed, but when he opened for business this morning and went to get the money sack, it was gone.

It is believed the thief had been in the place during the evening and went into the basement where he waited until after the place had been closed for the night.

Boy Reported Lost Returns To Home

Phillip Ward, 17 years old, who left home Tuesday afternoon, returned to his parents home, Mr. and Mrs. J. R. Ward, 1815 East Sixth street, about 8:30 o'clock on Wednesday night. The boy told friends he had just gone to Marshall Slater and Green Ridge to visit with friends.

Upon learning his parents were worried over his disappearance he called them about 8 o'clock Wednesday night from Green Ridge.

G. K. Mackey Passes Away

Was For Many Years Member Of The Mackey Shoe Co.

George Knight Mackey, 73, member of a pioneer Sedalia family and well known business man, died at 5 o'clock this morning at the Bothwell hospital. He had been ill for several weeks, but his condition did not become critical until Wednesday night and he was taken to the hospital from his home, 906 West Seventh street.

George K. Mackey

Mr. Mackey is survived by his wife, Mrs. Bessie Daniel Mackey, and a sister, Mrs. L. P. Andrews, 710 West Seventh street. He also leaves the following nephews and nieces: W. S. Mackey, Jr., Houston, Texas; Mrs. Merrill H. Nevin, Hollywood, Fla., and Mrs. T. W. Cloney Jr., Sedalia; Richard Cloney Jr., St. Louis and Lewis P. Andrews, Kansas City.

He was born in Sedalia on August 23, 1868, the son of the late William S. and Sarah McLaughlin Mackey. He attended the public schools here and graduated from the Sedalia high school, later attending a boys' school in Glasgow, Mo. He was married on June 1, 1892, to Miss Bessie Daniel of Sedalia.

After he left school, Mr. Mackey was associated in business with his father in the Mackey Shoe company. For the last few years he had been associated with the Cambridge Rubber company.

Mr. Mackey was a member of the Fifth Street Methodist church and had been active in civic affairs. He was a charter member of the Sedalia Country Club which he helped organize, and was a member of the Bothwell Lodge club.

Preceding him in death were a brother, W. B. Mackey of Sedalia, and a sister, Mrs. Richard Cloney of St. Louis.

Funeral services will be conducted at 3:30 o'clock Friday (Please turn to page 4, col. 2)

The Weather

Missouri — Continued mild today and tonight except cooler northwest tonight; windy today; light showers extreme southeast late tonight.

Lake of Ozarks Stage 1.5 feet below full reservoir.

Director Tells Of Vocations

Dr. F. C. Seamster Informs Kiwanians Of Youth Problems

Vocational Guidance week was observed by the Sedalia Kiwanis club when they heard a talk by Dr. Frederick C. Seamster, state director for guidance and occupational information, State Department of Education, Jefferson City, at the club's meeting in Hotel Bothwell Thursday noon.

The speaker discussed the war situation and youth problems that will have developed at the time of and after peace comes. He spoke of the necessity of guiding youth into the professions and the part service clubs can play in recognizing the importance of schools as a stabilizing factor in the life of the youth.

Pinkney Miller Chairman

Dr. Seamster was presented by Pinkney Miller, program chairman for April, who is in charge of vocational guidance in Smith-Cotton high school.

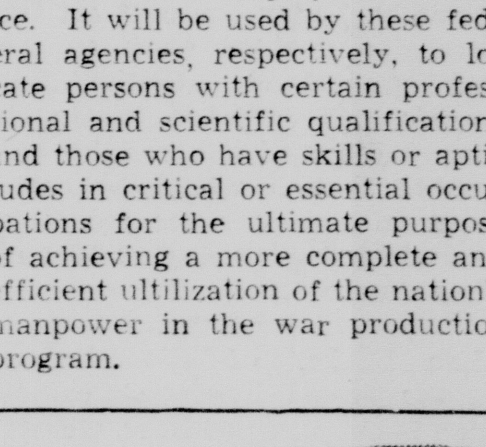

Riley Cunningham, who has been absent from meetings because of illness, was welcomed back. Phil McLaughlin celebrated the advent of a new daughter in his home by passing out cigars. Attention was called to the Kiwanis spring conference to be held in Columbia April 16, which will be attended by as many local Kiwanians who can make the trip. Tom Steading, St. Louis, was a guest of Laurence Roberts. Robert Overstreet, Jr., acted as club pianist in the absence of Mrs. Nellie Monegan.

Asks Study Of Questionnaire

Announcing the distribution at an early date of occupational questionnaires (Form 311) to men who registered on February 16, Colonel Claude C. Earp, State Director of Selective Service, urged that they give careful thought to their skills, experience and aptitudes when filling out these forms so that the best possible use of their services may be made in the nation's war effort.

The questionnaire, which will be distributed to February 16 registrants by their local boards, later will be sent to registrants of the First and Second Registrations and those of future registrations, Colonel Earp said. Its purpose is an inventory of the present employment activities of registrants and of their skills or abilities. It has no connection with, and is not to be confused with the regular Selective Service Questionnaire (Form 40) which will be sent to all registrants to obtain data on which Selective Service Classification is based, Colonel Earp emphasized.

The data obtained through the occupational questionnaire, the director said, will be forwarded through state headquarters to the National Roster of Scientific and Specialized Personnel and to the United States Employment Service. It will be used by these federal agencies, respectively, to locate persons with certain professional and scientific qualifications and those who have skills or aptitudes in critical or essential occupations for the ultimate purpose of achieving a more complete and efficient utilization of the nation's manpower in the war production program.

Threaten Invasion Of India

Japanese Receiving Aerial Reinforcements Which May Challenge Superiority Allies Won

By ROGER D. GREENE
Associated Press War Editor

Japanese sea-borne troops thrusting closer to India were reported today to have landed at the chief West Burma port of Akyab, only 100 miles from the Burma-India frontier, as prospects for mobilizing India's 390,000,000 on the side of the United Nations took a sudden brightening turn.

A Chinese spokesman in Chungking said the Japanese landed at Akyab under the protective covering of a force of cruisers and destroyers.

Akyab is only 250 miles across the upper Bay of Bengal from Calcutta.

Besides heightening the threat of a Japanese invasion of India, the landing directly imperiled the rear of British imperial lines now guarding the rich central Burma oil fields.

Preparing Sea Attack

Dispatches from Australia indicated that Japan's invasion forces in the southwest Pacific, halted in their attempted overland drive in New Guinea, were preparing to launch a seaborne attack on the key allied base at Port Moresby, only 300 miles across the Torres strait from Australia itself.

The Sydney Sun declared such an assault was "suggested by recent movements of enemy ships, which are being constantly attacked at Lae and Salamaua by the allied air forces."

Lae and Salamaua lie on the northeast coast of New Guinea, less than 200 miles above Port Moresby.

The Sun's correspondent at the United Nations' headquarters said eight fully-equipped Japanese divisions — between 120,000 and 150,000 troops — were massed in Java and at Singapore awaiting the signal for Japan's next major offensive.

Many Parachute Troops

The enemy forces were said to include large numbers of parachute troops.

The newspaper also reported that the Japanese were receiving "considerable" aerial reinforcements, threatening to challenge the air superiority won by United States and Australian fliers in the battle for the approaches to Australia.

A British broadcast said American and Aussie fliers had destroyed or crippled 96 Japanese planes with a loss of only 12 of their own since March 10.

Activity In Philippines

Resurgence of military activity was evident in the Philippines.

American-Filipino raiders hit destructively at two Japanese bases on the southern island of Mindanao, Zamboanga and Digos, a Washington communique said. Some sharp patrol clashes yesterday followed brisk fighting in which the Japanese, at a heavy cost in dead and wounded, forced back a few Bataan peninsula outposts.

Japanese naval vessels shelled the west coast of the peninsula and dive bombers again attacked the front lines and the Corregidor fortress, Manila bay bastion, but no serious damage was announced.

Fortress Damaged

Japan's high command, however, declared that air attacks between March 24 and 31 had damaged the fortress' anti-aircraft batteries, an airfield, barracks and other military establishments beyond repair.

The Washington Merry-Go-Round

By DREW PEARSON AND ROBERT S. ALLEN

WASHINGTON—The Washington Merry-Go-Round wishes to correct an earlier statement that John L. Lewis had three relatives on union payrolls whose salaries, plus his own, gave the family an annual "take" of \$48,500 from the collection of union dues.

We regret to say that on further investigation we find we erred grievously. We apologize to Mr. Lewis for underestimating his capacities and print below the full Lewis payroll showing that the miner czar has not three but nine relatives in cushy jobs and that the family "take" is not \$48,500 but \$70,500:

John L. Lewis, president	United Mine Workers	\$25,000*
Kathryn Lewis, daughter, secretary-treasurer, District 50, UMW		7,500*
Denny Lewis, brother, head of United Construction Workers Organizing Committee		10,000*
J. R. Bell, brother-in-law, CIO controller		6,000
Orin Miller, brother-in-law, superintendent of the UMW office building in Indianapolis, Ind.		5,000
Dan Collins, brother-in-law, CIO organizer		3,600
William Thomas, cousin, superintendent UMW building in Washington		5,000
Margaret Lindig, sister-in-law of Denny, UMW stenographer		2,400
Ann Miller, daughter of brother-in-law Orin Miller, UMW stenographer		2,400
Son-in-law of Floyd Bell, another Lewis brother-in-law, District 50 organizer		3,600

Total Lewis family payroll \$70,500
(*In addition to their big salaries, Lewis, his daughter and brother also have fat expense accounts. What they spend is their secret. No figures have ever been revealed, even to union members.)

And Still More
Imposing as is this payroll list, it still does not tell the whole story.

There is one Lewis relative who is not on a union payroll but who garners a high-bracket income from unions controlled by John L. He is brother-in-law Floyd Bell, an insurance agent. Representative of a surety company, Bell has what amounts to a monopoly on the business of bonding all national, district and local UMW officers and all CIO officials.

His commissions are estimated at \$40,000 a year.

This sum, plus the payroll listed above, would bring the total "take" of the Lewis family up to \$111,500 a year.

Gene Cox of Georgia
Justice Department big-shots have a bear by the tail and don't know what to do with it.

The bear consists of accusations that Rep. Gene Cox of Georgia violated the criminal statute (Title 18, U. S. Code, Sec. 203) which prohibits members of Congress from receiving compensation for representing private clients before government agencies.

Most of the Justice Department big-shots are in a cold sweat over the case and want quietly to bury it. They are scared stiff over the prospect of tangling with Cox. The raucous-voiced little Georgian is a potent figure in the House.

He is a leader of the powerful bloc of Southern, anti-New Deal, labor-baiting Democrats, ranking member of the mighty Rules committee, and on close personal terms with House floor chiefs. Also he is a resourceful and tough fighter, especially when under fire.

So most of the Justice big-shots want to let Cox off, perhaps, with some private ts-k-tsking. But younger members of the department are demanding legal action. They contend that the law is explicit and that it is the duty of the department to enforce it without fear or favor.

Attorney General Francis Biddle has not yet made up his mind.

Relief Pitcher Also Seems To Have Stuff On Hon. Ball

He is not noted for decisive action.

The Case

This is the information in the hands of the Justice Department: Station WALB, Albany, Ga., in Cox's district, applied to the Federal Communications Commission for a construction permit to change its frequency. Cox made several visits to the FCC in behalf of WALB. However, his name did not appear on the station's formal application as its attorney of record.

After several hearings, the FCC granted the permit and when WALB opened its new station, Albany newspapers gave Cox much of the credit for putting the project over. They acclaimed him as a potent figure in Washington.

Around this time, Cox received a check for \$2,500 from WALB. This check he converted into stock of the station. The Justice Department has a copy of this check.

Later, Hugh McCarthy, \$135-a-month clerk in Cox's congressional office, sent WALB a bill for \$226 he claimed was due him for services performed in connection with the permit. In addition to working for Cox, McCarthy also practices law on the side.

WALB refused to pay McCarthy. The station wrote him that Cox already had been paid for the job and the station saw no reason why it should fork over any money to McCarthy.

As far as the Justice Department knows, McCarthy still is unpaid. If he got any money he hasn't got it from WALB.

An interesting angle of the affair is that for months, Cox has been loudly clamoring for a House probe of the Communications Commission on the ground that it has a secret Gestapo. He introduced a resolution for such an investigation and has made a number of speeches demanding action on it, and denouncing the FCC.

Under congressional practice, if the probe is ordered, Cox would be chairman of the committee.

NOTE: Several years ago Cox was disclosed as being the No. 1 nepotist in the House. At that time he had eight relatives on the government payroll for a total take, including his \$10,000 salary, of more than \$55,000 a year.

Looking Backward

forty years ago.

The State Fair directors adjourned yesterday afternoon and Vice-President Norman J. Colman returned to St. Louis immediately. Today the contract for the roof and wood work on the steel grandstand at the fair grounds was awarded to H. M. Hammond for \$1,620, and he announced that it would be completed in time for the fair this year which begins August 18 and closes August 23.

Lou Burke, of Bloomington, Ill., the famed live stock sketch artist, is the guest of N. H. Gentry today and will sketch some of his blooded stock while at Wood Dale farm.

Twelve women, followers of Mrs. Carrie Nations, all heavily veiled, raided a "joint" at Eddyville, Neb., Tuesday night, smashing a large mirror and furniture and destroying several cases of liquor. The proprietor of the place was given 24 hours to leave town

or receive a coat of tar and feathers.

Sedalia lodge of Elks last night installed its officers-elect and initiated Charles Meierhoffer, of Boonville.

Clevenger Bond Is Reinstated

JEFFERSON CITY, April 2—(P)—Circuit Judge Sam C. Blair reinstated Grover Clevenger's bond on a fraud indictment Wednesday and continued his case to the May term—but not until he gave the former penal director a judicial scolding for ignoring an earlier trial date.

Clevenger, now a lieutenant commander in the navy, appeared today and told the court he had been unable to obtain a navy release in time for his original trial date last week.

Judge Blair reinstated the \$1,000 bond he forfeited when Clevenger first failed to appear, but said another failure would bring "more drastic action."

"The defendant (Clevenger) knew when his trial date was set," Blair said. "He was definitely A. W. O. L. from this court, with no one here to speak for him."

"I don't think I was subverting the defense efforts of the United Nations when I forfeited his bond. That bond is an unqualified guarantee that he would appear for trial. There is an obligation on the defendant to find out when he is to be tried."

Clevenger and two other men were indicted on a grand jury charge that they obtained money through false pretenses in connection with the installation of water softeners at the prison. The two others were acquitted by a circuit court jury last week.

Carpenters Name Delegates

Wednesday night at a meeting of the Carpenters and Joiners union George Ethridge, Jolly Lister, Ted Eschbacher and E. E. Barrick were named delegates to the Missouri state convention of Carpenters and Joiners to be held at the Bothwell hotel on May 16 and 17 and those four were also named on a committee on arrangements, welcoming and entertaining.

The members at their meeting voted to instruct the trustees to purchase an additional \$300 in United States Defense bonds making a total of \$1,000 purchased by that body.

Delegates were also chosen to the Missouri State Federation of Labor meeting to be held in Sedalia at the court house starting May 18. They are George Ethridge and Ted Eschbacher.

Cantata At Horace Mann

An Easter cantata, "The Thorn Crowned King" by Fred B. Holton, will be presented by the Horace Mann mixed chorus under the direction of Miss Jerry Teufel at 7:30 o'clock Thursday night in the school auditorium.

Mrs. Henry Salveter will be accompanist for the program, which will open with a scripture by Bobby Harrison and Wayne Rucker. After the processional the following program will be given:

Let the righteous be glad, opening chorus; He chose the cross of shame, Patricia Griswold; Betrayed, Jerry Brown and chorus; The Thorn Crowned King, Audrey Cramer; Let Him be crucified, Keith Harris and chorus; Alas, and did my Savior bleed? chorus; They laid Him away, Margie Ghosen and chorus; He is risen, Jerry Brown and chorus; Glory in the garden, Audrey Cramer and Patricia Griswold and chorus; Praise ye the Lord, final chorus. Recessional.

A stained glass window which will be used in the cantata and the programs were made by Miss Joyce Lynn and her art classes.

Members of the Horace Mann chorus are: Dorris Michael, Susan Spieler, Shirley Ragar, Mary Lou Witte, Audrey Cramer, Margie Ghosen, Patricia Griswold, Anna-belle Harmon, Ima Fay Burton, Elizabeth Strain, Beatrice Kerr, Eva Mae Wheatley, Mola Mae Witte, Dorothy Sheffield, Jerry Brown, Carl Whiteman, Billy Hilton, Arthur Spraggins, Charles Woodson, Albert Shoe, Walter Dexheimer, Bobbie Harrison, Keith Harris, Wayne Rucker, Junior Hill, Leonard McNeal, Ledrue Hilton, Eugene Whiteman.

Former Sedalian Ill In California

Albert Alvin Turley, former Sedalian, is seriously ill in the Bernardino county hospital, San Bernardino, California, according to information received in Sedalia by the local police department. Relatives of Mr. Turley are being sought by his daughter, Miss Irene Grace Turley.

Miss Turley desires to inform her father's relatives of his condition, which is extremely critical. Anyone knowing Mr. Turley or his relatives are asked to communicate with the Sedalia police.

Syracuse Play Friday

The Syracuse Juniors will present their class play, "There Goes the Bride" at 8:30 o'clock Friday night at the Syracuse high school auditorium.

Democrat-Capital Class ads get results, 10 words, 1 week, 60c Phone 1000.

CAN'T KEEP GRANDMA IN HER CHAIR

She's as Lively as a Youngster—Now her Backache is better

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pen and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty urination, and burning and stinging sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Wed In Marshall

Mr. and Mrs. Cecil Kelley of Hughesville, who were married March 18 at Marshall. Mrs. Kelley is the former Miss Jessie Wright, the daughter of Mr. and Mrs. Forrest Wright of Marshall Junction. The bridegroom is the son of Mr. and Mrs. Ed Kelley, who lives west of Hughesville.

Mrs. R. Gerster PTA President

Last Meeting Of The Year Was Held On Wednesday

The Sedalia Council of Parent-Teachers held its last business session of the year Wednesday afternoon at the library. Mrs. Paul Zink president, presiding. Mrs. Dan Carr of Horace Mann school gave the devotional, "Quotations from the Bible on the need of prayer in our every day lives."

Mrs. Ellis Garrett, council mutual aid chairman, reported on activities of that committee, showing splendid results. Nine hundred thirty four pieces of clothing new and old were given to 236 children and a total of \$227.50 was spent.

An auditing committee of Mrs. Henry Menefee and Mrs. Dan Carr was appointed. A roll call of units brought reports of successful meetings held in March.

Officers elected for 1942-43 were Mrs. Roy Gerster, president; Mrs. Elmer Dillard, first vice president; Mrs. Everett Momborg, secretary; Mrs. J. T. Rucker, treasurer; Mrs. E. W. Richardson, historian.

Mrs. P. R. Burford and Mrs. M. E. Green gave a report of the state board meeting held in St. Joseph. A letter from the state secretary was read expressing thanks to the local P. T. A. members for inviting the annual convention to Sedalia.

Miss Bettye Field, school nurse, reported on the dental clinic being sponsored by the city schools and spoke briefly on a recent health meeting held in Kansas City, saying that all the speakers were urging immediate health checkup and dental attention.

The May meeting will be a covered dish luncheon at the home of the retiring president, Mrs. Paul Zink, 1206 South Stewart, at one o'clock, May 6. New officers will be installed at this meeting.

Billions And Half In Certificates

WASHINGTON, April 2.—(AP)—The treasury will sell \$1,500,000,000 worth of certificates of indebtedness April 6, it announced Wednesday.

In selling these securities, of a type not used since 1934, the treasury will use for the first time the new borrowing powers granted by congress last week when the federal debt limit was raised from \$65,000,000,000 to \$125,000,000,000.

"Nudge" Your Lazy Liver Tonight!

CONSTIPATION with its headaches, mental dullness, a half-alive feeling often result if your liver bile doesn't flow freely every day into your intestines. So take Dr. Edwards' Olive Tablets to insure gentle yet thorough bowel movements. Olive Tablets are simply wonderful to stir up liver bile secretion and tone up muscular intestinal action. 15c, 30c, 60c. All drugstores.

Society and Clubs

Members of the Ladies Bridge club of Otterville, entertained their husbands Saturday evening at the home of Mr. and Mrs. L. F. Parker.

Guests were seated at five tables where a dinner course was served before the series of bridge games.

Attending were Mr. and Mrs. T. Edwin Wherley, Mr. and Mrs. C. A. Rapp, Mr. and Mrs. J. E. Golladay, Dr. and Mrs. R. L. Fogle, Mr. and Mrs. H. Roger Starke, Mr. and Mrs. J. H. Gunn, Mr. and Mrs. R. Martin, Mrs. Ethel Layne, Mr. and Mrs. L. F. Parker.

Special guests were Miss Jennie Lee Starke of Booneville, and Mr. and Mrs. Cochrane of Chicago.

High score honors were awarded Mrs. Gunn.

Miss Ruth Colvin, whose marriage to Mr. Murray Wood of Sweet Springs, will take place in the near future was honored at an 8 o'clock breakfast given last Sunday morning by Miss Naomi Maddox and Mrs. Lola Arbogast on the balcony at Williams cafe.

The centerpiece on the breakfast table was a large bouquet of yellow calendulas, white snapdragons and stock and freesias. Three branch crystal candelabra with yellow candles were at either end of the table. Place cards were flower-bedecked celluloid umbrellas.

Seated at the table with Miss Colvin and the hostesses were Miss Ann Fletcher, Miss Myrtle Lewis, Miss Opal Lewis, Miss Dorothy Burford, Miss Josephine Scott, Miss Emil Lowry, Miss Marian Laudenberg, Miss Frances Colvin, Mrs. Dan Carr, Mrs. Lawrence Gardner Jr.

A gift of glassware was presented to the honoree.

Miss Virginia Reynolds, assisted by her mother, Mrs. G. L. Reynolds of LaMonte, was hostess at a shower on the evening of March 24 given in honor of Mr. and Mrs. Raymond Hagan, who were married March 7. Mrs. Hagan was formerly Miss Juanita Wharton of LaMonte.

After an informal evening and the opening of the gifts, the hostess served refreshments.

Mr. Hagan teaches at the Green Ridge high school.

Miss Betty Reid, 410 Dal-Whit-Mo court, a resident student at Fontbonne college in St. Louis, returned home Wednesday to spend the Easter vacation period. She was accompanied by Miss Frances Ann Lynch of Atlanta, Ga., a classmate who is her house guest.

Miss Colvin was honored at a kitchen shower and pre-nuptial party given Wednesday night by Miss Emil Lowry and Miss Marian Laudenberg at Miss Lowry's home, 508 South Carr avenue.

Flowers that decorated the home were pastel sweet peas in colorful bowls and vases. A gold colored Easter egg was filled with small capsules containing directions for finding hidden gifts for the bride-to-be.

Games were played during the evening with Miss Dorothy Burford, Miss Maurine Wetzel and Miss Myrtle Lewis winning the awards.

Guests were Miss Ruth Colvin, the honoree, her sister, Miss Frances Colvin, Misses Myrtle Lewis, Opal Lewis, Blanche Faust, Naomi Maddox, Lima Crole, Mary Ross, Maurine Wetzel, Josephine Scott and Kathryn Egendorf, Mr. and Mrs. Fred Arbogast, Mr. and Mrs. Lawrence Gardner Jr., Bill Wood, Murray Wood, the prospective bridegroom and W. J. Kennedy, sponsor of the Queen Esther group of the B. T. U. of the First Baptist church to which most of the group belongs.

Miss Lowry and Miss Laudenberg.

At Reunion

R. W. Hyatt, of Sedalia, route 4, is shown here holding his great granddaughter, Judy Kay Rosecrans, of Gilliam, with his son, Clarence Hyatt, of Houstonia, on his right and his grandson, Rev. Woodrow Rosecrans of Gilliam, on his left. The four generations were together at a reunion at the Rosecrans home in Gilliam.

berger were assisted in entertaining by the former's mother, Mrs. Curtis Lowry and her aunt, Mrs. Anna Barrow.

Doing Their Part

A. M. Hopkins of Otterville, whose youngest son, Ray Hopkins, is in technical training, located at Jefferson Barracks, had two older sons in World War I. Allee Hopkins, Sedalia route 2, and Charlie Hopkins of Otterville.

Michael Hopkins, son of Allee Hopkins and grandson of A. M. Hopkins is also in the service.

Will Of Mrs. Baumgartner Filed In Probate Court

The will of the late Mrs. Ida A. Baumgartner has been filed in probate court. To her half sister, Mrs. Elberta Crooks DePrey, of Litchfield, Ill., she left the sum of \$100, and the remainder of her estate she bequeathed, share and share alike, to her daughter, Mrs. H. C. Aughinbaugh, of Houston, Texas, and her son, Walter A. Baumgartner, of Kansas City.

Her son is executor of the estate.

Services Tonight

The members of the Fifth Street Methodist church are urged to attend the Maundy Thursday Communion service at 7:30 this evening in the auditorium of the Fifth Street church.

EVERYBODY COME!

Miss Wasserman At Temple Beth El

Dr. Harry S. May, Rabbi of Temple Beth El, invited Miss Zepora Wasserman to the pulpit to read the poem "The White Cliffs" by Alice Duer Miller, the modern American writer and poet. "The White Cliffs" is a dramatic poem which expresses completely and beautifully what many Americans feel about England in this dark hour.—Robert E. Sherwood (Lincoln in Illinois) says, "Miss Miller's poem is a remarkable picture of England and the English spirit as we have seen them through our American eyes." "The White Cliffs" start as a charming and even, at times, an amusing poem gathering emotional power as it goes till it comes to a moving and splendid end. Miss Wasserman, who is a pupil of Miss Lenore Anthony in Kansas City, and who has gained already a fine reputation as dramatic interpreter of poetry and literature, will recite "The White Cliffs"—a highlight of our winter season.
The public is invited to join the friends and members of Temple Beth El Friday evening at 8 o'clock.

Obituaries

Funeral Of Clemens Honkomp

Funeral services for Clemens Joseph Honkomp, 63, who died Tuesday night at St. Joseph's hospital in Kansas City, will be held at 9 o'clock Friday morning, and the body will be brought here for burial.

The funeral party is expected to arrive here about 11:30 o'clock Friday morning, and interment will be by the grave of his wife in Calvary cemetery.

Mr. Honkomp, a former internal revenue agent, was born and reared in Sedalia.

Members of the Knights of Columbus, of which Mr. Honkomp was a member, will meet the funeral party and attend the graveside services.

Stephen Chmelir

Stephen Chmelir, of Cole Camp, died at the Bothwell hospital, at 11:30 o'clock Tuesday morning, a few minutes after his arrival there. He had been ill and was brought to the hospital, hoping beneficial treatment might be given him.

Surviving are his wife, a son, Leonard Chmelir, of Cole Camp, and a daughter, Mrs. Jennings Donahoe, four sisters, Mrs. Charles Foster, Gravois Mills, Mrs. John Deuber, Miss Mary Chmelir, of Cole Camp and Mrs. W. T. Morarity, of Mora, and two brothers, John Chmelir, Cole Camp and Joseph Chmelir, Ionia.

Funeral services will be held at St. Peter and Paul church, in Cole Camp, at 10 o'clock Saturday morning.

Wilbur F. Smith

Mrs. Thelma Smith, 1722 South Ingram avenue, received word of the death this morning of her husband, Wilbur F. Smith, in Fulton.

Besides his wife Mr. Smith is survived by his father, D. S. Smith, 627 East Thirteenth street,

and two brothers, C. W. Smith of 627 East Thirteenth street and E. J. Smith, 503 South New York avenue.
The body is being brought to the Gillespie Funeral Home. Arrangements for services have not been completed.

Union Services On Good Friday

The climax of Holy Week is Good Friday, which is being observed with appropriate services in the various churches of Sedalia. The union three hour service, from noon to three o'clock, sponsored by the Ministerial Alliance, will be held as usual at Calvary Episcopal church.

The service will begin at noon, with the Rev. Richard A. Park, rector of Calvary church, conducting.

Meditation on the "Seven Words of the Cross" will be delivered by the following ministers:
12:20, Rev. J. F. King, pastor of the First Methodist church: "Father forgive them, for they know not what they do."
12:45, Rev. H. M. Janssen, of the Broadway Presbyterian church: "Today shalt thou be with me in Paradise."
1:10, Rev. G. M. Vrienzelaar of the Church of the Open Bible: "Woman, behold thy son." "Behold thy mother."
1:35, Rev. R. A. Park, "My God, My God, why hast Thou forsaken me."
2:00, Rev. H. U. Campbell of the Fifth Street Methodist church: "I thirst."
2:30, Rev. P. L. Miller of Trinity Lutheran church: "It is finished."
2:40, Rev. O. J. Rumpf of Immanuel Evangelical and Reformed church: "Father, into thy hands I commend my Spirit."

Those attending may come and go during the singing of hymns as their circumstances may require.

Fashion Show At Lincoln High

The fashions for spring and summer and frocks for Easter will be on display in the Annual Fashion Show at Lincoln high school Friday night.

All garments on display were made in the Home Economics department of Lincoln high school under the supervision of Miss Catherine Ferguson, efficient teacher of that department.

Hundreds of dollars have been spent with the Sedalia merchants for the purchase of material. "Buy at Home" is a slogan of the Home Economics department, and the lesson has been learned and well applied in purchasing for this annual festival.

The following will be displayed: Kiddies' dresses and suits; Spring prints and gingham; Street, sport

and afternoon dresses; Suits and coats; Hats, gloves and pocket-books; Evening gowns.

Students will model the show's garments and accessories. A cordial invitation is extended to all citizens, both white and colored, to attend, and see what the students of this department are being taught in Home Making.

State Flower, Club Topic

The Arator Homemakers club met March 25 at the home of Mrs. Ernest Cramer with 14 members and three visitors, Miss Dorothy Bacon, home demonstration agent, Mrs. Dennis Moon and Mrs. Ernest May, Jr., present.

"The Star Spangled Banner," sung by the group formed the opening of the meeting. "The First Easter" was read as the devotional. Roll call was answered with "A Book I'd Like To Read."

An article on "Our Missouri State Flower," the hawthorn, was the feature of the program. A demonstration was given on the making of a dress form.

Games were played after the program.

Dog, Sixteen Years Old, Dies

A shepherd dog, belonging to Joe Crain of Hughesville, route 2, that lived to the unusual age for a dog of sixteen years, died last Wednesday.

"Shep" And Master

The Crain family obtained the dog when it was a small puppy. He grew to be a faithful watch dog and was always trustful with children. His favorite sport was playing ball with children.

About two years ago Shep lost his hearing, and gradually his eyesight. A week before he died he had a stroke which left him helpless.

Needless to say the family will miss him.

Candidates Of Student Council

The names of six candidates for the office of junior and senior student council presidents were turned into the office of Smith-Cotton high school Wednesday as the annual campaign for the highest student office officially began.

The three candidates who will run for the senior student council office are Cecil Swift, Bonnie Herrick and Keith Kreissler. In the junior office race will be P. J. Hedderich, Darrell Norris and Kenneth Hunt. There usually are a large number of candidates, but because of this year's smaller number, it was announced that there would be fewer campaign speeches necessary and follow-up votes to eliminate them.

Campaign speeches will be made Monday, April 13, and the first vote election will be held Tuesday, April 14.

Cheese Making Demonstrated

Mrs. A. W. Hampy, chairman of the Homemakers committee of the Ionia community club gave a demonstration of the making of cheese from sweet milk and clab-

ber at the regular meeting of the club Friday evening.

Mrs. Hampy, who showed the club cheeses made of both methods, gave recipes for making them and told of the savings farm women may make by preparing their own cheese. At the close of the program Mrs. Hampy was assisted by members of her committee

in serving crackers and cheese to the crowd.

An interesting program was presented following the cheese demonstration. It was announced that a musical program will be presented by the Cole Camp high school at the April meeting of the club.

Two-pronged forks were first introduced as weapons.

MUSCULAR RHEUMATIC PAIN
For Quick Relief—Rub On **MUSTEROLE**

This new wartime recipe serves 6 to 8... at 5c or less per serving!

Here's a "fightin' food"...
Complete recipe for **Pillsbury's Vegetable Chowder Au Gratin**

1. Combine 2 c. diced raw potatoes, cooked, 1/2 c. sliced onions, cooked, 1 c. each chopped celery and carrots, cooked; mix lightly. 2. Combine 5 Tbsps. butter and 5 Tbsps. Pillsbury's Best Enriched Flour in saucepan over direct heat. (That creamy, appetizing appearance of Pillsbury's Best is one result of the care with which this flour is milled. Every single hour during milling, samples are tested to insure this inviting color.) Add 2 1/2 c. milk gradually; stir constantly; cook until thick and smooth. Add 1 1/2 tsps. salt, 1/4 tsp. pepper, and vegetables. 3. Turn into 2-qt. casserole. Top with the following CHEESE STRIPS: 4. Sift and measure 1 1/2 c. Pillsbury's Best Enriched Flour, add 2 1/4 tsps. baking powder (or 1 1/4 tsps. double-acting) and 1/2 tsp. salt; sift together. (These strenuous times call for endurance, sound nerves, and the ability to stand up under hard work. That's why the two B-vitamins have been added to Pillsbury's Best—plus iron to help build red blood. These added nutrients make no change in the appearance, taste, or baking quality of the flour.) 5. Cut in 1/4 c. shortening until quite fine; add 1/2 c. grated nippy cheese. 6. Add 1/2 c. milk, about; mix until all flour is dampened. 7. Knead lightly for a few seconds on floured board. (Pillsbury's Best Enriched Flour is your best defense against baking failure. Pillsbury's Best is Bake-Proved before it reaches you! Actual baking tests are made 4 to 6 times a day during milling to give you a flour that you can absolutely depend on. The nation looks to you to give your family the best possible food values for the least money. Let Bake-Proved Pillsbury's Best help you in this important task.) 8. Roll out to about 1/4-in. thick; cut into 3/4-in. strips. 9. Place cross-ways over mixture, making 3 layers of strips. Brush with milk. 10. Bake in hot oven (400° F.) 25 to 30 min. Garnish with pimiento. This delicious vegetable chowder, topped with flaky Pillsbury's Cheese Biscuits is a real "fightin' food"... rich in food-energy, a good source of essential vitamins and minerals. To build 'em up for a hard day tomorrow, get a bag of Pillsbury's Best from your grocer and make Vegetable Chowder Au Gratin for tonight's supper!

WHOSE HAM for Easter?

RECTOR RECOMMENDS:
Look for my favorite Ham Recipe wrapped with the Wilson's Ham you buy for Easter.

George Rector
Food Consultant - Wilson & Co.

Why WILSON'S of course

U. S. Inspected and Passed by the Department of Agriculture

READY TO SERVE
WILSON'S Certified Tender Made HAM
OR JUST HEAT AND EAT
THE HAM YOU CUT WITH A FORK

MADE BY WILSON'S SECRET PROCESS

Wilson's Certified Tender Made Ham
Ready to Serve or Just Heat and Eat

Only Wilson & Co. makes genuine Tender Made Ham. Only the genuine Tender Made Ham gives you the mouth-watering taste and tenderness so desirable for the annual Easter Sunday feast. Heats in only 5 minutes per pound. Saves costly "oven shrink." If you want the finest "ready to serve" ham, insist upon genuine Wilson's Tender Made—

"The Ham you Cut with a Fork"

Wilson's Certified Smoked Ham
To Be Cooked Before Eating!

This is the smoked ham with the marvelous mild smoke flavor and super-tender texture. The favorite main dish for Easter Sunday Dinner, among those who like to cook or bake ham, their own way. Requires 18 to 20 minutes per pound in the oven. Accept no substitute. Look for the ham in the bright orange wrapper and the famous Wilson's "W".

The original, tender, extra mild smoked ham

The Wilson label **WILSON & CO.** protects your table

Best for Juice

and Every use!

You need no expert to tell you that California orange juice is better!

You see it in the deeper color. You taste it in the more delicious flavor.

And science verifies it. More vitamins C and A, and calcium in every glass!

Only Navels are seedless! And they are easy to peel, slice and section, for recipe use and "eating."

No Restrictions on Many Foods Rich in Vitamin A

Reminds Mrs. George Thurn, In Her Weekly Letter To Sedalia Homemakers

Dear Friends in Sedalia:

The War Production Board's limitation order to conserve the supply of vitamin A for human consumption should be regarded as a benefaction by homemakers. Or perhaps it should be termed a challenge to those who have been leaning too heavily on the daily quota of ready-to-swallow vitamins, overlooking the generous quantities supplied the body by three meals a day that are well-planned and well-prepared.

The order does not mean that no vitamin A will be available in capsule or liquid form, but it does limit the number of units available in individual doses. The chief source of vitamin A has been fish liver oils and about 75 percent of the total used in this country formerly came from Norway and Japan. It is essential to the Air Corps to prevent "night blindness" and much of the sup-

ply is being diverted for men in this critical job. There are several angles of night blindness. A deficiency of vitamin A causes poor vision in dim light and moderately bright light results in "glare-blindness"; that is, a person is unable to quickly regain vision after exposure to bright light. Insufficient vitamin A also reduces resistance to colds, tooth enamel is of small quantity and poor quality and the skin becomes dry and scaly. This vitamin is essential for growth. Unless adequate amounts are retained in the food eaten, normal development will be seriously curtailed.

And now for a review of those foods so rich in vitamin A. If your family has been afflicted with more than its share of colds this year, why not check with this list and plan to include more of these foods in your daily meals.

Dairy products, always doubly popular in Lent, are right at the top of the list. That includes butter and cream, whole milk, cheese and eggs. Yeast is rich in vitamin A and is in the honored company with liver (beef or calf), parsley, spinach, tomatoes and tomato juice, apricots, green lettuce, yellow potatoes, carrots, candellion leaves (watch now for those

tempting tender Spring shoots), squash, salmon, sardines, oysters and halibut oil. Broiled chicken livers also are excellent.

Other vitamin A suggestions are fish roe, poultry fat, asparagus, beans, cabbage, cherries, chard, cornmeal (yellow), escarole, hominy (yellow), horseradish, kale, yellow fruits, olives, mangoes, corn, dates, peas, peppers, prunes, celery, nectarines, okra, peaches, broccoli, turnip greens, and beet tops, Brussels sprouts, Spring onions, kidneys (beef, veal or mutton), lamb quarters.

Night blindness has been publicized because it usually is the first definite symptom of vitamin A deficiency. Authorities agree that permanent loss of sight and even death would be the eventual result of a diet completely lacking in vitamin A.

How much is needed daily? It is both simple and pleasant to eat the amount of vitamin A which is specified in the yardstick developed by national experts on nutrition.

One small serving of liver, one-fifth cup of quick-cooked spinach, three-quarters of a sweet potato, one-fourth cup of quick-cooked young beet tops, 2 cups carrots, 1 tomato, one 6 ounce glass of tomato juice, 5 apricots, 1 and 1/5

cups of broccoli, 2 leaves of celery, 1 Spring onion or 4 ears of corn. Liver is so rich in vitamin A that 1 ounce of chicken liver or 1/2 ounce of beef liver will provide a full day's supply.

Vitamin A is easily destroyed by cooking, particularly in the presence of oxygen. Experiments have proved this fact so inconsistently that it is one of the main reasons for urging the covering of all foods during cooking, except for baking, broiling and certain types of roasting. The only exception to covering in boiling is for members of the cabbage family.

See that water in the saucepan is boiling rapidly before vegetables are added. Drop them in quickly, cover and cook as rapidly as possible, not removing the cover until cooking is completed.

It is important to cook vegetable by methods that require very little water, or none at all. This protects both vitamins and minerals. Wash vegetables quickly before they are cut or pared.

When vegetables are placed in water for crisping, after preparation, there is serious loss of nutritive material from the cut cells. By avoiding excess amounts of cooking liquid, the dissolving and loss of vitamins and minerals is held to a minimum.

It follows that quick cooking protects vitamins and minerals in foods by keeping the time they are exposed to heat, liquid and air to a minimum.

Now that the carrot has been boosted as a vitamin A food which sky watchers should eat regularly, it is enjoying a popularity boom. Experts in this country and in England are developing new recipes around it and are advocating its use raw or cut in slivers for munching, or shredded in salad. England grows carrots by the acre and has relied on this vegetable for one of her main sources of vitamin A.

Mrs. Thurn suggests these re-

cipes to Sedalia homemakers:

RASPBERRY CREAM PIE
2 cups milk, scalded
1/2 cup sugar (*)
1/2 cup flour
1/2 teaspoon salt
2 eggs
1 1/2 tablespoons butter
1/2 teaspoon vanilla
1 baked pastry shell
Topping: 1/2 cup cream whipped
1 to 2 tablespoons raspberry or strawberry jam
(*) Original recipe called for 1/2 cup sugar, however 1/3 cup is ample with the addition of this sweet topping.

Mix the sugar, flour and salt. Gradually stir in the scalded milk. Cook in the top of a double boiler until the mixture has thickened. Cover and cook 10 minutes longer. Beat the eggs slightly; stir in a little of the hot mixture; add to contents of the double boiler; stir exactly 1 minute. Remove from heat; add butter and vanilla. Cool the mixture slightly. Pour into the baked pie shell. Chill. Just before serving, cover with this topping.

Whip 1/2 cup heavy cream and fold in 1 to 2 teaspoons raspberry or strawberry jam. Or try 1 tablespoon grape jelly. Serves 6.

CARAMEL SYRUP
One easy way to "stretch" sugar is to prepare a supply of sy-

rup for flavoring and sweetening desserts and milk shakes.

Melt 1 cup sugar in heavy, dry fry pan over low heat. When light brown, remove from heat, add 1/2 cup boiling water, stir well and boil 5 to 10 minutes or until caramel is dissolved. Cool, and store in covered jar in cool place.

CLEAR TOMATO SOUP

A delicious, well flavored soup gets the meal off to a good start and proves the skill of the culinary artist.

2 No. 2 1/2 cans tomatoes
2 cups water
2 stalks celery
4 slices currents
pepper
4 tablespoons chopped green
3 whole cloves
4 to 6 whole peppercorns
1 1/2 teaspoons salt
1/2 small onion

Combine all ingredients in a saucepan. Heat to boiling, reduce heat and simmer about 30 minutes. Strain and serve, topped with minced parsley. (A grating of lemon may be added.) Serves 6 to 8.

MOLASSES HERMITS
1 cup sugar
1/2 cup shortening
1/2 cup molasses (or syrup)
1 teaspoon soda
1/2 cup lukewarm water

3 cups sifted flour
1 teaspoon ground cloves
1 teaspoon cinnamon
1/2 teaspoon salt
1 cup raisins or dates, cut fine.
1 egg, beaten.
Cream sugar and shortening. (Part or all brown sugar may be used.) Add molasses, then soda

dissolved in lukewarm water. Add flour sifted with spices and salt, then fruit cut fine. Stir in the beaten egg last.

Drop from teaspoon on greased cooking sheet. Bake 10 to 12 minutes in moderate oven (350 degrees F.) Makes 100 cookies.

Food Values That Will Help You Stay Within Your Budget

To dress up spinach: Mix in 3 tablespoons grated horseradish or cheese to each 3 cups cooked spinach, sprinkle crumbled cooked bacon over well-seasoned spinach in serving dish ready for the table. Or add 1 cup browned

mushrooms and 1 tablespoon chopped browned onion to each 3 cups of cooked spinach.

Padres of California began making wines for their own consumption.

Peanut Venders
The peanut vender profession started early in the 1900's.

Eat More Carrots

THE wise homemaker will "sell" her family thoroughly on carrots in the daily diet. For carrots are among the important yellow vegetables; they are high in vitamin A content which is a factor in contributing to strength of the eyes and in helping to eliminate the inability to see at night.

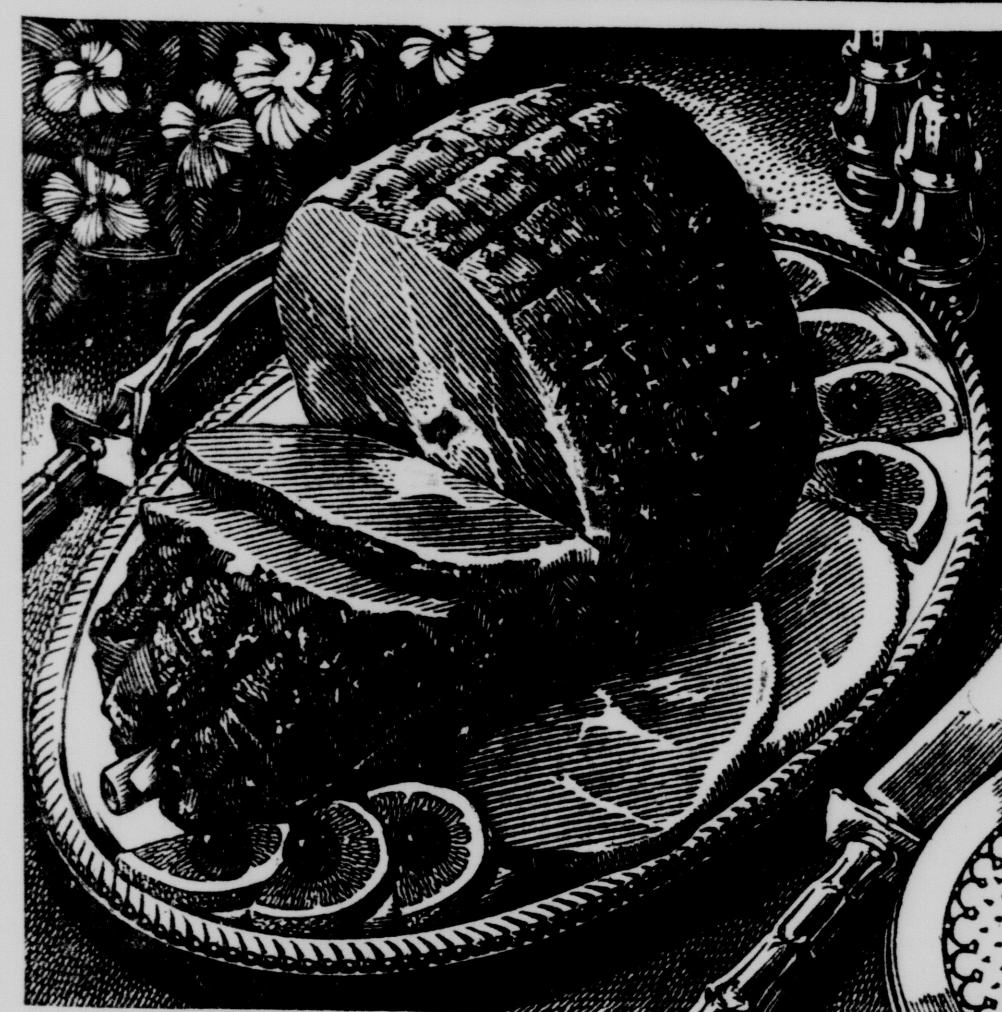

So be sure to serve carrots often! Serve carrots raw and serve them cooked! Tender young carrots should be cooked whole in as little water as possible in a tightly covered pan; when boiling begins turn down the flexible gas flame to maintain gentle boiling; then the carrots will cook in steam and retain the maximum of their food values. Cook only until tender and serve immediately.

Kind Of Crop For Modification On Erosion Of Soil

Rotation Is Helpful When Properly Done

The soil conditions as well as the kind of crop can modify soil erosion, according to results reported from the new cooperative experimental field of the Soil Conservation Service and the Missouri Agricultural Experiment Station near McCredie, Missouri. These tests show that erosive crops properly placed after a sod crop in the rotation become less dangerous as soil eroders. Soybeans, needed more extensively at this time, and commonly considered erosive, are not so serious in this respect if the soil condition has been improved by a meadow crop grown immediately preceding the soybeans.

The soil and water losses from the rotation of soybeans-winter barley-meadow on the experiment field last year were less than from all rotations containing corn. The losses from this rotation were 2.54 tons of soil per acre and 16.35 inches run-off, in contrast to 12-15 tons of soil per acre and 20.63 inches runoff from the 4-year rotation of corn, soybeans, wheat and lespedeza. They may be compared further in the losses from an annual rotation of winter barley and soybeans where the losses of 7.51 tons per acre and 17.60 inches of run-off were practically the same as from a rotation of corn, oats, and meadow. The soybeans were drilled solid lengthwise of the plots. The year was one of the high run-off and soil, due to excessive rainfall in April, July, and October. Rainfall for the year was 54.17 inches, or 28 per cent above normal.

Protection To Soil
Maxim vegetable cover is provided in the soybean-winter barley-meadow rotation. Immediately after the soybeans are harvested for hay, in the latter part of August, the winter barley is drilled. Growth from the early seeding of this crop provides protection to the soil from fall rains and until harvest the next June. The young meadow in the barley provides cover from this time until April of the second year, following which the area is plowed for soybean planting the following month.

A rotation of corn, soybeans, wheat, meadow has been grown on terraced land at the Bethany Station since 1931. An intimate knowledge of the erosional characteristics of the rotation was gained from a study of the data obtained and formed the basis for design of the McCredie Station soybean rotations.

Last year was the second year of operation for the rotation plots on the McCredie Station, and the first year of soil and water loss measurements. The studies are already pointing to the fact that erosion is a matter of the condition of the soil as well as the kind of crop. Soybeans can make their wartime contribution, without excessive cost by fertile land well loaded with organic matter as a result of preceding soil improvement, and are given the assistance of the necessary supporting conservation practices.

Proper Care For The Berry Patch

In late March or early April, any surplus mulching material on the strawberry patch should be lightly raked from the rows and tramped down between them. The mulch should be left on the plants as long as possible though to prevent plants and buds from late freezes. If growth starts and some of the plants become blanched from too much mulch, it should be removed at that time. In removing the mulch try to leave as much material around the plants as possible, removing just enough to permit the plants to grow up through it.

In April, it may be desirable to weed the patch, removing any wheat or grain plants that may have been established from seed in the straw, and any of the "winter" weeds that usually appear in limited numbers. Such grain and weeds will use up much of the moisture that the strawberries require for best growth. These weeds can be best removed by hand pulling or by means of a hoe. If the mulch is disturbed in this process it should be carefully replaced.

W. R. Martin, University of Missouri College of Agriculture.

Green Feed Is Animals Choice

It is known rather generally that animals prefer green feed grown on soil rich in lime and phosphates. In a survey conducted among 74 Missouri farmers who were conducting test-demonstrations with phosphate, where phosphate fertilizer was applied to portions of their pasture all but four reported differences between the fertilized and unfertilized portions. These differences included preference of livestock for the herbage on the fertilized portion, and a healthier, darker green color of plants resulting from the use of fertilizer.

Evidently herbage from land that has received lime and phosphate tastes better. From the human standpoint we would probably find that vegetables and fruit also taste better when grown on land well supplied with these minerals.

It is generally recognized that a shortage of lime and phosphate in the soil means that the most desirable crops, especially the soil-building legumes, will not grow well if at all. We also realize that a shortage of these minerals in the diet means weakness in the animal and in the human system, especially the bones. In experimental work, lespedeza hay from limed and phosphated soils has been found to be nearly 50 per cent more efficient in producing gains on sheep than that grown on soil not receiving applications of these minerals. But an analysis of these hays did not indicate this value. This leads us to believe there are some hidden or as yet unexplained values resulting from the use of these minerals on soils deficient in them.

Since lime and phosphate are so helpful in the more efficient plant and animal production, and are essential for the best development in humans, it would be wise for us to make sure our vegetables are produced on land that contains a good supply of these minerals.

—O. T. Coleman, University of Missouri College of Agriculture

Food Value Of Milk Is High

While milk does not contain all the food substances required by the body it does contain more of them than any other one food, points out Miss Flora L. Carl and Miss Letha O. Knight of the University of Missouri College of Agriculture.

Generous use of milk on the farm, in town, or in the city means reduced food bills and better health. Milk has no equal among foods as a source of calcium which is needed by everyone, young and old. Calcium is required for processes to keep all parts in working condition.

Milk is not only our richest source of calcium, but it also contains phosphorus in just the proper amount to utilize calcium to the fullest extent. It is almost impossible to get a sufficient amount of calcium from foods unless milk is included in the diet. A pint of milk contains as much calcium as 4-2 pounds of bread, 10 pounds of beef, 15 pounds of

High Compliment From President To Youths

One of the highest compliments which could be paid any youth group is the following message from President Franklin D. Roosevelt.

"The White House, Washington, March 11, 1942.

To the 4-H club members of the United States:

In an hour when our nation needs the active support of every group of its people, it is gratifying to learn that the 4-H clubs will hold a National Mobilization Week, to rally the million and a half members and spur them to greater efforts in the cause of freedom. It is to be hoped that the National 4-H Mobilization Week also will bring more rural young people into active participation in the useful work in which 4-H club members engage.

Your activities in producing, preserving, and preparing food; in making clothing; and your other practical experiences in

Lye And Water As Strong Disinfectant

Lye solution, made by dissolving one can of ordinary lye in 12 gallons of cold water, is one of the most effective disinfectants that can be used in cleaning and disinfecting all types of poultry equipment, says C. E. Rohde of the University of Missouri College of Agriculture. It is sometimes necessary to use two and even three applications in order to remove all the filth and provide a clean surface for efficient disinfection. Under these circumstances lye is most effective.

Feeders Day Be Held April 9

Producers Of Livestock Again Invited To Attend

The College of Agriculture of the University of Missouri is again inviting Missouri livestock producers to the Annual Livestock Feeders Day that will be held on University farm, Thursday, April 9.

According to E. A. Trowbridge of the Animal Husbandry Department some of the results of the experimental cattle and hogs are striking and all are significant in connection with the war production. He further states that seeing the results of these experiments and hearing the current information on war time problems should do much to aid in the war time livestock production. The program for the day is as follows: 10:00 a. m., Presiding will be Prof. E. A. Trowbridge, University of Missouri; "Agriculture in International Affairs," Dr. F. A. Middlebush, President of University of Missouri; "Current Agricultural Problems," Dr. M. F. Miller, Dean, College of Agriculture, University of Missouri; "Livestock Loss Prevention," Mr. Ray L. Cuff, Live Stock Exchange, Kansas City, Missouri; "Livestock in War Time," Mr. Charles E. Snyder, Editor, Daily Drivers, Journal, Chicago, Illinois; 1:00 p. m., "Hogs Fattening Problems," Prof. L. A. Weaver, University of Missouri; Simple and complex mixtures as supplements to corn. Influence of breeding on rate and economy of gains. Methods of feeding supplements to hogs. "Lessons From the Production Contests," Prof. T. A. Ewing, University of Missouri; "Growing and Fattening Cattle in Winter," Prof. A. J. Dyer, University of Missouri; Silage from corn, Atlas sorgho, barley, and alfalfa in rations for wintering yearlings. Lespedeza seed as a protein supplement for fattening cattle. Effect of winter gains on later pasture and feed lot performance. "Pasture and Roughness in Beef Production," Prof. E. A. Trowbridge, University of Missouri.

140 head of hogs and 96 head of yearling cattle which have been used in experimental work during the winter will be brought through the livestock pavilion and their winter treatment discussed.

potatoes, 2 pounds of carrots, or 2 dozen eggs. All these foods have important contributions to make to the diet, but milk stands out as the one food for which we have no substitute because of its available calcium and phosphorus.

The protein of milk is of high quality and in a form easily used by the body. The solids of the brain, muscles, blood, and other organs of the body are composed mostly of protein. For the growth and repair of these organs protein is constantly necessary.

High Compliment From President To Youths

One of the highest compliments which could be paid any youth group is the following message from President Franklin D. Roosevelt.

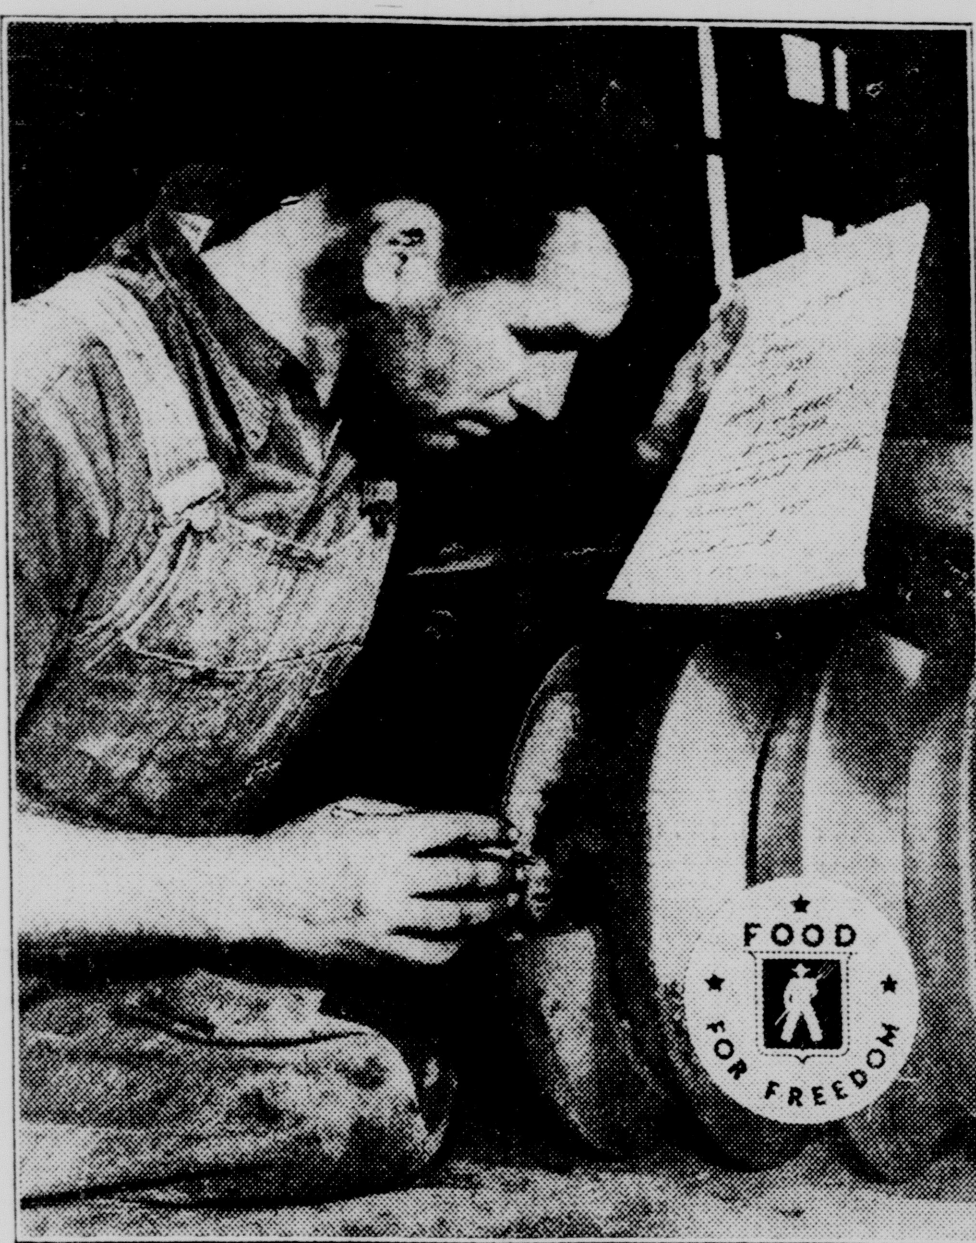

"The White House, Washington, March 11, 1942.

To the 4-H club members of the United States:

In an hour when our nation needs the active support of every group of its people, it is gratifying to learn that the 4-H clubs will hold a National Mobilization Week, to rally the million and a half members and spur them to greater efforts in the cause of freedom. It is to be hoped that the National 4-H Mobilization Week also will bring more rural young people into active participation in the useful work in which 4-H club members engage.

Farm War Board Says Order Repair Parts Now

This farmer is ordering his repair parts now, thereby making sure that his farm equipment will be in top shape for seeding and harvesting. The County USDA War Board says it is highly important that all farmers do this. Last minute repairs may not be possible due to shortages. Secretary of Agriculture Claude R. Wickard has declared that it is every farmer's patriotic duty to have his machinery in best possible condition in 1942 for production of victory foods. "Check over your old machinery and order necessary parts from your dealer," he advises. "If parts cannot be obtained, notify your County USDA War Board."

The County USDA War Board estimates 80% of the farmers have ordered necessary machinery repairs. America is asking that we produce more food with less steel. Are you doing your part?

Problems Of Rural Life In The Victory Campaign

The budget for this country for the fiscal year July 1, 1942-June 30, 1943 calls for war expenditures of nearly 53 billion dollars as compared with probably expenditures of 24 billion dollars in the year 1941-42. To step up armament production at the rate indicated by this budget means that in 1942 labor, factories, and raw materials formerly used for producing civilian goods must be diverted to our vast war effort.

To call to mind the part of every citizen in this situation Jessie Harris, president of the American Home Economics Association, has worked out a "Consumer's Victory Alphabet." This should help the average person to cooperate in defense work.

Victory A. B. C's.

The A. B. C's of Victory are printed here for your reference. A is for Armament, which comes first in war, and for Administration of individual, family, and community resources to conserve labor, materials, and money for war needs.

B is for Bonds, through the purchase of which defense can be financed and postwar reconstruction can be made possible. B is also for Budgets, needed more than ever by consumers and the nation.

C is for Consumers. 132 million strong, who can either cooperate with or compete with war effort of our government. Also for Civilian Defense through Community Services and Cooperation. Some of the community services we may look to are: nutrition information centers, consumer information centers, school lunches, penny milk, food stamps, low-rent housing, health clinics, D is for Democracy and Defense, for which we must accept our full responsibility as citizens. This means active participation in the government of city, state, and nation to the end that we achieve a real democracy at home.

E is for Economy, the watchword for civilians for the duration; for Electricity, an important war material for us to conserve especially in defense-plant areas; and for Enriched Flour and Bread. F is for Food to win the war and make the peace—food to be raised and to be used wisely to improve national health. F is also for Faith in our government and our farmers.

G is for Grades and standards, a much needed aid to the consumer. We should use those that we have and insist upon grades for articles as yet unlabeled.

H is for Home Economics Clubs that can make a great contribution both in war and in peace; for Health—to "make America strong by making Americans stronger"; and for Home Production of food, clothing, and recreation.

I is for Income, which can be blessing or bane. The combination of more money in the hands of

the consumers and greatly curtailed civilian goods can lead to inflation if we do not cooperate with the government's effort to control prices through purchase of defense bonds and through other forms of savings. It is also for installment buying which should be avoided as much as possible.

J is for Justice for all, which each of us can further by not trying to get more than our share of available goods or services, and by generous support of community welfare services.

K is for Knowledge through which we may be able to maintain our standard of living and yet not compete with defense production. We must learn how, what, and when to buy; what to eat for health; how to produce, preserve, and prepare food; how to save; how to care for the sick and injured, the children; how to make and mend clothes; to care for equipment, to use substitute materials.

L is for Loyalty to country; and for Leaks through which materials are wasted.

M is for Morale; and for scrap Metals, which we can get back into industry through junk dealers and charitable groups who collect them; and for Milk through which national health is to be safeguarded.

N is for better Nutrition, basic defense need, which we can help secure through education and example.

O is for Organizations with which we should cooperate to win the war, among them the Office of Civilian Defense, the Red Cross, the Nutrition Committee.

P is for Peace, our ultimate goal and for Patriotism. In the conservation field, P is also for Paper, Pots, Pans, and for Prices, which consumers can cause to rise if they try to hoard supplies.

Q is for Quality, the concern of the consumer who wants to use her money wisely. It also stands for Questions whose answers you should try to find from classes in nutrition, first aid, and Consumer Information Centers.

R is for Rubber and for Rationing, a protection against the injustice of hoarding; and for the Red Cross, which needs our help. S is for Schools, for Saving, for Scrap metals, Sugar, Simplification of designs, Shoes, Services, and Smiles that help others to carry the load.

T is for Tanks, for Trucks, for Tires. It is for Thrift, a weapon for each of us; for Taxes and Turnip greens, both of which have a contribution for defense.

U is for Unity through which your club can work with other clubs in the community, the state, and the nation.

V is for Victory, which means winning both the war and peace; and for Volunteers, needed both as teachers and pupils in the education program.

W is for Winning the War,

Furniture And Rugs Care In Demonstration

Miss Woodruff Gives Pointers To 45 Homemakers

Forty-five leaders representing 23 Home Economic Extension Clubs started an army of homemakers in Pettis County to conserving furniture and rugs Friday afternoon when they met with Miss Louise Woodruff, State Extension Home Management Specialist on training in the Selection and Care of furniture and rugs. Because of the necessity for prolonging the use of equipment on hand, Miss Woodruff stressed the care of these articles. She pointed out that not just anyone can dust nor can dusting be done just any way. As a demonstration, she prepared a dustless dust cloth. She also made homemade furniture polish of which each club received a sample.

In the repair of furniture the removal of white spots and scratches were discussed.

Demonstration Given

Another interesting demonstration was that of shampooing upholstered furniture. This is especially useful where vacuum cleaners are not available.

In discussing floor coverings, Miss Woodruff showed samples of various types of rugs and linoleums. She stressed that proper care has almost as much to do with the wear of a floor covering as does the structure. More examples, experiments show that a rug cushion or pad may increase the life of a rug from 75 to 150 per cent. Of news to many of the women was the precaution to not beat rugs or carpets nor shake small ones. Shampooing and re-sizing of rugs were demonstrated as well also the reweaving of pile and rebinding of worn edges of rugs.

Representatives of each of the clubs samples of these two ways of repairing rugs so they might illustrate these skills at their own club meetings.

Clubs Represented

Clubs represented were Oak Grove, Van Natta, Stokeley, Maplewood, Bois d'Arc, Prairie Ridge, Bowling Green, Blackwater Progressive, Sunnyside, LaMonte Thursday, LaMonte Homemakers, Longwood, Flat Creek, Eldorado, Liberty, Champion Striped College, Arator, Smithton, Friendly Homemakers, Quisenberry, Oak Point, Buncombe, and Hillview.

After the meeting a group of the leaders went to the McLaughlin Furniture Store where Mr. Phillip McLaughlin and Miss Woodruff showed points to look for in selecting furniture. Dowel, dado, dovetail, mortise and tenon, and corner blocks were some of the construction detail pointed out. Solid and veneer furniture was examined and a beautiful rubbed finish was inspected.

Mr. McLaughlin discussed home of the various woods used in furniture and showed the construction of overstuffed furniture. He also showed rugs and rug pads. Design and color were stressed both in rugs and furniture.

At the close of the afternoon one of the women said "I didn't know there was so much to learn about furniture and rugs. Our club members will really like this lesson."

through concentrated efforts not to Waste money, time, talents, or materials.

X is for those Unknown Factors that lie ahead, the privations and tragedies for which we shall have need of all our courage and devotion.

Y means You.

Z is for the Zeal with which you should do your part.

Democrat-Capital Class ads get results, 10 words, 1 week, 80c. Phone 1000.

To Colleges After 4-H Work

One third of the 31,000 students enrolled in State colleges of agriculture this year are former members of 4-H Clubs, the Department of Agriculture announces. The enrollment figures were reported to the Extension Service by State 4-H Club leaders in a study of the influence of the 4-H Club program on leading and helping farm boys and girls to train themselves in better farming and home-making and community leadership methods.

404 of the students enrolled in the Missouri College of Agriculture or 35 per cent are former 4-H club members. In two of the State agricultural colleges, Nebraska and Alabama, more than half the students enrolled had received practical training in 4-H Club work before entering college. The total number of students enrolled in agricultural colleges was 5,000 smaller than two years ago, due largely to the war, but the percentage that had been 4-H Club members was two per cent greater.

Many former 4-H Club members go to college other than State colleges of agriculture, M. L. Wilson, Director of Extension Service, pointed out. Only enrollments at the State college of agriculture, however, were included in the survey.

Since 1930, special highway taxes have cost American automobile and truck owners nearly \$10,000,000,000. Of this figure, 64 per cent was in gasoline taxes, and 36 per cent in license taxes and registration fees.

There are eight states, all in the south, where the average gasoline tax is in excess of \$50 annually.

According to a survey recently taken, drivers around 40 years of age have the lowest accident rate.

Uncle Sam Says:

"REPAIR NOW"—

Farmers — YOUR ATTENTION PLEASE!

The Government of the United States asks for your cooperation in a program to help yourself and to help your government. Plan right now to make all necessary repairs to your present farm equipment. Agriculture is asked to produce more food in 1942 but this cannot be done with poor implements. Replacement parts are available now but they may be scarce in a few months.

Serial Story . . .

Mexican Masquerade

by Cecil Carnes

Copyright 1942

NEA Service Inc.

THE STORY: Allan Steele posing as magazine photographer, seeks Dr. Sargent and daughter, on U. S. mission in Mexico's Peninsula, who have disappeared; also news of Harry Bishop, maddened by mysterious injection while on same mission. Bishop, found, reported only "The yellow devil!" Allan gets leads from Sun Su, Chinese proprietor of isolated inn, who is working with U. S. He learns there is a Japanese spy nearby island that might be front for plane and bomber supply base; that "beautiful and evil" Asia Minor, Eurasian girl who hates the English, is connected with it. He makes play for Asia, is suspicious of her friendliness with Col. Escobar, enigmatic officer of Rural Guard.

CHEESE CATCHES MOUSE

CHAPTER VIII

THE lobby was still empty; Asia and Escobar were still chatting in the patio; the rest of the hotel was silent as the night itself. Allan went to bed, reflecting as he undressed that he had not done so badly for the first afternoon. Tomorrow he would have a look at those islands, he promised himself, and if those yellow devils—

Then his head hit the soft pillow and he proceeded to sleep like the seven Ephesians. It was broad daylight when the Indian boy, sweeping the central court, awakened him.

He bathed, breakfasted in his room, got into the riding kit he had brought, guessing he would need it, and was waiting for Asia at 9 sharp in the lobby. She appeared promptly with the news that she had ordered a horse for him as well as for herself from a rancher down the road.

She rode well. So did Allan Steele, winning her praise when he subdued a lively rebellion staged by his mount. They settled to an easy single-step, keeping side by side and talking.

In response to her fairly direct questions, he obligingly invented a mythical family which had suffered mythical outrages at the hands of the hated English. She expressed womanly sympathy, and frankly aired some of the grievances she had brought from India.

They cursed the British Empire in language hotter than the July heat. Allan also gave birth to an older brother who, he said, was an army officer running an important bureau in the War Department at Washington—a brother who kept him informed of much that went on behind the scenes. Allan was quick enough to note the glance she darted at him when he brought out that item of family history. He had her interested, he decided.

She accounted for herself quite readily. She owned a big share in a Japanese fish cannery operat-

ing in the gulf, and was here to keep an eye on her investment.

THEY got back to the hotel at noon. Allan saw a saddle horse tethered in the shade by the front door, and Escobar standing by and watching them keenly as they rode up. He saw something else, too, and checked an exclamation; chancing to look up the road toward San Saba, he spied his elusive friend of over-night just disappearing behind some bushes. Allan whistled softly at a sudden notion; he beckoned to the officer as Asia dismounted and went into the lobby.

"Senor Colonel, I observed a man last night watching this inn while you were inside. I have just seen the same fellow lurking up the road. Thought I'd tell you. It occurs to me that possibly you are being followed—perhaps by one of those 'friends' you met yesterday!"

"Ah!" Colonel Escobar reached up to touch his mustache, staring thoughtfully at the American. "Yes," he admitted slowly, "it is quite possible I am being watched. Could you see if the fellow had on dark blue clothes? And a quite large sombrero?"

"That describes him perfectly," Allan could not condone assassination even for traitors, so he added: "Better keep your eyes open for trouble, eh?"

"Indeed, I will be most careful," promised the colonel of rurales. "And meanwhile, senor, permit me to thank you once again for a kindness. I shan't forget it."

They went into the hotel together, chatting casually. Escobar continued on his way to the patio and Allan halted at a gesture from Sun Su behind the desk. The Chinese was holding out a telegram, which Allan took and ripped open in some mystification. He wasn't expecting a wire from anybody.

The message was signed with the name of the magazine editor in San Francisco, and the text was brief. It said: "When are you going to send us some pictures?"

Allan grinned to himself. He recognized the fine Italian hand of his chief in this. It was he who had sent it, not the editor, and it was merely designed to bear out his avowed reason for being in Lower California. He stuck the envelope in his pocket, then spoke quickly to Sun Su.

"I'm going for a spin in the car directly after lunch—looking for photographs, you know. Thought I'd drive about ten miles south along the shore road and

see what I find."

"Be careful, senor," murmured the fat man, fanning himself. "If I might suggest something—"

"Please do. I'll welcome any tip you give me."

"Inland about half a mile there is a second road, not too rough, which takes the same direction as the first. It is much more private. When you are abreast of the islands I mentioned, you'll find a steep little hill with a clump of pines at the top. Lying in them, with that excellent pair of glasses I noticed you carrying, you can see much without being seen yourself."

"Right! Thanks a lot, Sun Su." Allan held the other's eye a moment. "If I don't come back, you'll know where I went last!"

"I understand, senor. I quite understand."

Allan went into the corridor leading to his room. Some yards beyond it the door of another room was slightly ajar; a shadow passing to and fro across it told of movement within. That would be Asia, he surmised.

A moment later he smiled at himself in the glass above his washstand. A light footstep had come along the hall, paused just an instant, then went along toward the lobby. The cheese had caught the mouse. Asia had picked up the envelope, but she was going to have a look at its contents before returning it to its owner.

Half an hour later, coolly clothed in a fresh linen suit and feeling pleased with himself, he selected a table in the patio and ordered lunch. The boy had no sooner gone than Colonel Escobar came sauntering across the court and laid a familiar missive on the table.

"Senorita Minor asked me to hand you this; she picked it up in the corridor, where she thinks you must have dropped it."

"A thousand thanks. Just a word from my editor asking why I haven't been sending him pictures."

"Yes. And apparently the impatient gentleman has been traveling a bit himself." Escobar's hand was at his mouth, either to shape his small mustache or to hide a twitch of his lips. "You said his office was in San Francisco, did you not? Yet I observed the wire is dated from San Diego."

"The devil!" said Steele sorely. It was disconcerting to have the chief's well-meant gesture turn into a boomerang, but Allan forgot that in a temporary irritation. "Do you always read lost correspondence before returning it to its owner, Colonel?"

(To Be Continued)

Mind Your Manners

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. Should a hostess try to keep conversation from becoming gloomy?
2. Should the address of a letter to a man include "no. title whatever," as "George Brown"?
3. In addressing a letter to a physician is it proper to write

"Dr. James Smith" of "James Smith, M. D."?

4. Would it be correct to write "Mr. James Smith, M. D."?

5. Is it correct to speak of a physician's wife as "Mrs. Dr."?

What would you do if—

You are late answering a personal letter—

(a) Say that you have been too busy to write?

(b) Don't make any excuse unless you have a real one?

Answers

1. Yes.
2. No.
3. Either is correct.
4. No.
5. No.

Better "What Would You Do" solution—(b).

V for Victory

More than 15,000 retail stores are participating in the government's program to salvage materials vital to the war effort.

A total of 70,500 new defense homes are now ready for occupancy. These homes are part of the 130x108 now being built or completed. Federal funds have been allotted for 221,002 defense homes.

Since January, 1941, 221,353 privately financed, FHA-inspected homes have gone into construction.

Cargo of the German motorship Willmote, interned before entry of the United States into the war, yielded 4000 tons of crude rubber, 100 tons of truck tires, 360 tons of brass, 50 tons of copper, and sizeable quantities of raw wool, hides, grains and peanuts.

Allocation orders will be issued for second-hand tools as well as for new equipment, in the same manner that sales and deliveries of other merchandise is controlled.

Most detailed statistical study of the metals industry ever under-

taken in this country was launched by the War Production Board, with questionnaires mailed to 10,000 firms. Inventory of materials on hand in production, as well as uses of products, will be determined.

Typewriter manufacturers now make artillery components and fire control equipment. One firm assembles a small caliber gun, another makes anti-aircraft projectiles, and all will be asked to take on the manufacture of complex items needed for the war program.

Today's Pattern

15c in coin, your name, address, pattern number and size to Sedalia Democrat - Capital Today's Pattern Service, 106 7th Avenue, Missouri.

Funny Business

"Don't worry, dear, the tailoring and mending program follows the setting-up exercises!"

Hold Everything

"Well, well! It's a pleasure to look into your bright and shining faces!"

Practical Apron

If prizes were given out for good apron designs, Pattern No. 8094 would be a blue ribbon winner. It has everything—an easy fit, shapely lines and is quick to put on because of the straps which button at the shoulders. Furthermore it opens flat for ironing so it is double easy to keep fresh and clean. Just a few yards of low cost cotton will make it—and it is as easy as ABC to sew.

Pattern No. 8094 is designed for sizes 35 to 48. Size 36 requires 31-2 yards 32 or 35-inch material. 3 yards bias fold for trim.

For this attractive pattern, send

Yankees Are Still Favored As Winners

Predict Browns Will Go Into First Division This Year

By GAYLE TALBOT
TAMPA, Fla., April 2—(P)—This is getaway week in the baseball training camps, and as the sun-tanned athletes hit the exhibition trail leading to opening day on April 14 there is talk of only one team that might possibly inject a little pepper into an otherwise unpromising Yankee-dominated American League race. That club is the St. Louis Browns.
Every manager who has met the Browns this spring says they are a good, fast outfit that "might cause a lot of trouble." A couple of pilots, whose opinion the writer respects highly, say that Luke Sewell's outfit is a cinch to climb into the first division. It was one of the three teams in the American League to play better than .500 ball after Decoration day last season, the others being the Yankees and Washington.
The Predicted Order
Here is the order, then, in which

the coming war-time campaign might wind up:

(1) New York, (2) Chicago, (3) Boston, (4) St. Louis, (5) Cleveland, (6) Detroit, (7) Washington, (8) Philadelphia.
The Yankees, winners last year by a lop-sided 17 games, are fundamentally so much better than any other team in the junior circuit that there is no real comparison. Sure, they haven't been looking like world champions this spring, so what? By mid-summer they will have some rival club owners pining secretly for a split season.
The Chicago White Sox, who were third last year with exactly a .500 average, appear to have the pitching to boost them up to second place this time, say about 25 games off the pace. If they make it, then the loud and persistent group which insists that Jimmy Dykes is the greatest manager in the world—not barring even Joe McCarthy—will have to be listened to with new respect.
Boston, despite the loss of Joe Cronin's power at the plate and the fact that it is unusually allergic to the draft, should have enough left to grab third. Ted Williams, one of the really great hitters of our time, probably could finish that high by himself.
Not Too High For Browns
Fourth does not appear too high a goal for the Browns considering the quality of this opposition. Sewell has a pair of good-looking southpaw rookie pitchers, Stan Ferrens and Frank Biscan, and another youngster named Vernon Stephens at short who might turn out to be the freshman of the year. The club, however, is very susceptible to the draft.
Cleveland has a popular new manager in 24-year-old Lou Boudreau, and the club is saturated with harmony, but that almost sums up the assets since the great Bob Feller climbed into navy blue. Barring a possible find or two among his rookies, Lou is painfully short on pitching and catching.
Detroit has lost weight steadily since it won a pennant only two seasons ago, and with the departure of 222-pound Buck Newsom the other day the Tigers' ribs began to show sure enough. Del Baker scarcely has enough pitchers left to get up an inter-club game. Bill Hitchcock, the team's new shortstop from Kansas City, appears to be a jewel.
Washington's hopes, if any, were shot when Cecil Truitt and Buddy Lewis went into the service. That was all the hitting the club had, and even if Newsom is retained he can't help the situation much unless they convert him into an outfielder for his batting punch.
The selection of Philadelphia to finish eighth is purely by instinct. It is the position the A's have won in five of the last seven years.

Pittsburgh Is Coming Threat In National

In Fourth Place The Last Two Years As Team Was Building

YUMA, Ariz., April 2—(P)—Frankie Frisch's Pittsburgh Pirates of 1942, boasting a new club record with 16 victories in 20 exhibition games, are shaping up as a definite threat to the National League supremacy of the Cardinals and Dodgers.
If the Bucs click during the regular season like they're clicking now, the hard-driving "Fordham Flash" has a fine chance to make good on his attempt to give Pittsburgh a pennant-winning team in three years.
Buy Here and There
Buying here and there, Frisch has created almost a brand new club, as only six of the 26 players on the 1939 roster of former manager Pie Traynor are still around.
Frisch's foundations emerged in fourth place in 1940 and 1941 as the process of team-building went on. Then the flash acquired some material which seems to be all the Pirates needed—greater batting power and a tighter infield.
A large chunk of the new Pirate power came from the Dodgers—which would make a bitter pill for the Brooklyn champs should the Bucs dethrone them.
The Pirates figure that even in one player they profited by the swapping of shortstop Arky Vaughan for four Dodgers last winter, holding that Pete Coscarat, who has taken over Vaughan's post, is doing a better fielding job. His hitting is all right, too.
The Bucs also received Babe Phelps, A-1 both in catching and pinch hitting; pitcher Luke Hamlin and outfielder Jimmy Waddell.
The Pirates gained further strength in two rookie outfielders: Johnny Barrett of Hollywood, who is batting a sizzling .400, and Johnny Wyrostek of New Orleans who virtually became a regular by his bang-up throw from left centerfield to cut off the Chicago Cubs' winning run at home plate last Saturday. One expert called it the best pirate throw in 17 years.
The club's other standout innovation is the transfer of outfielder Bob Elliott to third base, a weak spot last year. After only a few weeks at the hot corner, Elliott's work has satisfied the demanding Frisch.

Spirituals At Church Of The Open Bible
The Rev. G. M. Vriezelaar announces an added feature for the services there tonight will be a group of singers of spirituals from the choir of the church of which Rev. J. Y. Jackson, negro minister, is pastor.
The Surls sisters will play their vita-harp and sing old time songs and Eva Surls will speak on "Even to Calvary."
The program of the children's roundup will be Friday evening with sixty children taking part.

Briefs From The Training Camps

By The Associated Press
ORLANDO, Fla. — Clark Griffith of the Washington Nationals is in the market for a hitting outfielder and a third baseman. His theory is that a winning team will mean big games this season in Boom-town Washington, especially with 21 night games scheduled at Griffith stadium. Since buying Buck Newsom, Griffith is satisfied with the pitching staff and he thinks the Nats may finish in the first division with more power at the plate.
ALEXANDRIA, La. — Manager Mel Ott of the New York Giants is worried about the lost poundage of Pitcher Bill McGee, who had yielded only two runs in 16 innings before he was blasted for eight hits and six runs in three frames yesterday by Cleveland. McGee is 25 pounds lighter than last season and is so serious about keeping in shape that Ott has to order him to eat more.
ST. PETERSBURG, Fla. — Frank Crespi was one of the last to arrive in the St. Louis Cardinals' training camp, but the second sacker is setting a fast pace now. He handled 13 chances flawlessly and lashed out a homer and a double as the Cards whipped Detroit 5-3, yesterday. Lon Warneke and Clyde Shoun will pitch against Washington today.
DAYTONA BEACH, Fla. — President Larry MacPhail of the Brooklyn Dodgers is urging Joe Medwick to "keep that bat out of your hands and do some running." MacPhail told Joe he never would get any of his extra weight off just swinging a bat. "I've got him on a diet," MacPhail disclosed.

JACKSONVILLE, Fla. — Charlie Keller of the New York Yankees feels better, now that he has clouted his first home run of the year. The slugging outfielder poked one over the centerfield wall, more than 400 feet from home plate, against the Jacksonville team yesterday.

DELAND, Fla. — The St. Louis Browns, owning a Grapefruit league record of ten victories in 14 games, will attempt to fatten a winning average today against Montreal of the International league. Bill Cox and the Rookie

DECORATING DRAMAS
NORFOLK, Va., April 2—(P)—Attended by a ship's doctor who was in agony because of two broken ribs, a young mother gave birth to a baby boy in a crowded lifeboat pitched about by 15-foot waves after their ship was torpedoed and sunk off the Atlantic coast Sunday by an Axis submarine.
Rescue ships picked up 89 survivors of the large American passenger-cargo ship and landed them at Norfolk. Three others were known dead and 29 were missing, the fifth naval district said in announcing the sinking tonight.
Those saved included 31 passengers and 58 crewmen. The three known dead were crew members. Missing were eleven passengers and 18 crewmen.
Three Norwegian Ships Torpedoed
STOCKHOLM, April 1—(P)—Ten Norwegian ships berthed in Sweden since the German invasion of Norway made a dash for England Wednesday night, and three of 10,000 tons each, were torpedoed as soon as they cleared the limit of Sweden's territorial waters, it was disclosed Wednesday night.
There was no immediate word regarding the other seven ships. All had been held at Goteborg, on Sweden's west coast, since war came to Norway. The torpedoed three were attacked just beyond the 3-mile limit.
